Dear Transportation Customer/Marketer:

The tariffs that allow you to purchase your own gas and transport it through the Nicor Gas distribution system include an Unaccounted-For Gas Adjustment. The unaccounted-for factor changes from year to year based on actual experience. Nicor Gas has completed its annual review and will change the current factor to 2.17% on September 1, 2007. This is an increase relative to last year's factor of 1.54%. As a result of this change, we encourage you to adjust your gas supply nominations accordingly.

Nicor Gas routinely monitors variability in the system-wide unaccounted-for factor and is currently conducting a special review of the conditions that influence this variability. Should any significant finding require a revision to the factor, the company will communicate this information to all affected parties. We appreciate your patience in this process.

If you have any questions, please call the Gas Transportation Customer Service Center at (630) 983-4040.
